# CREATE DOTTED CONNECTIONS

Learn to hold a pencil. Count in sequence.

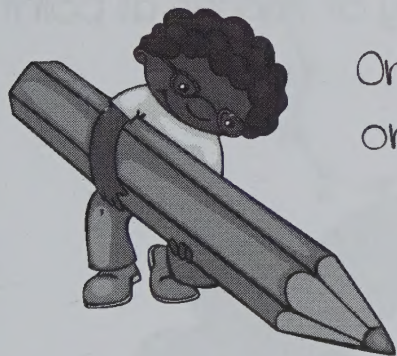

These are only some of the kid-targeted benefits dot to dots bring. If you choose themed dot to dots, the benefits will expand to accommodate knowledge on the subject matter. For instance, mastery of the English alphabet, improved ability to identify shapes and animals, and so on.

# HOW TO START

---

Every page in this activity book will feature mystery images. Ask your child to look for the number 1 or the letter A, and start linking the dots from there onward. Encourage him/her to follow the sequence of counting or reciting the alphabet.

Once all the dots have been linked, pat your child on the back. Hoot with delight if he/she can color the final images, too.

## CORRECTING MISTAKES

---

Mistakes are part of the learning process. If your child links 1 to 3, then tell him/her gently to do it again. Correct your child's mistakes as they happen. That's the key to maximizing the benefits of this activity book.

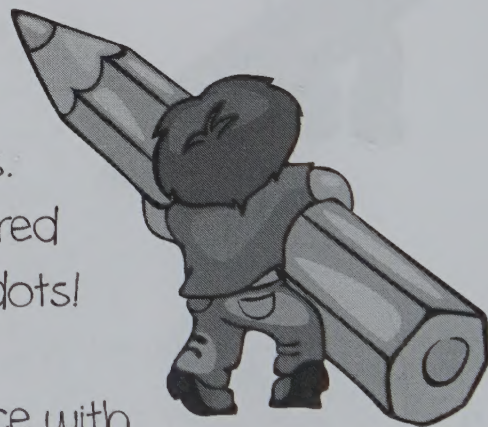

# IMPROVING THE LEARNING EXPERIENCE

---

Dot to dots is a progressive learning tool. Yes, the activity might become repetitive because the instructions and the format will remain the same. However, the number of dots to connect, the complexity of connections and the unfamiliarity of images all point to continuous learning.

To improve the experience, you can also initiate mini-competition between siblings, friends and even older family members. After all, there is no preset knowledge required to enjoy a good game of mystery dot to dots!

Help your child become an artist and an ace with numbers!

**Let's practice  
your drawing  
skills next!**

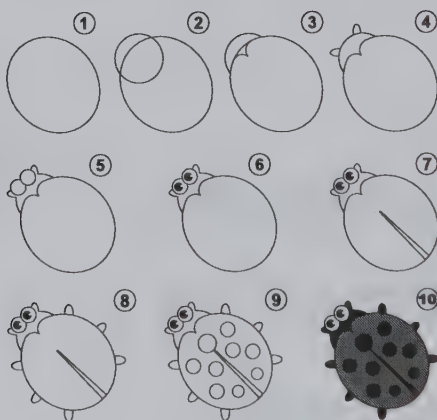

---

# How to use this drawing book

On the left side, your child will see the step-by-step guide on how to draw an image. The guide will start with a single shape, and from there, new forms and lines will be added until the image is complete. Numbers are included to guide your child on where to start and what comes next.

The pages on the right, on the other hand, are blank. Your child will try his/her hand at drawing on these pages. Encourage your child to follow every step illustrated on the left page. The result? Well, that's for you to see in a jiffy!
